The traveler, who was asked by a clerical-looking fellow passenger—whether or not he drank, may have been justified, before answering, in asking whether the question was an inquiry or an accusation. But my advice to you, uh, is "Let not opportunity slip between your fingers." Take it, whenever such a query is put to you, as a friendly suggestion, provided, uh, that there is within convenient reach a supply of

THE AUTOMATIC TELEPHONE.
For a good many years the Chicago
public had ample opportunity to ob-
serve what telephone monopoly meant
in the way of service.The rates had been raised several
times—and threats of another raise
were being made. There was talk of
abolishing certain forms of residence
service. The public was treated with
scant courtesy. There were intermin-
able delays in changing old phones
and installing new ones.Then came the automatic telephone,
bringing with it the much needed
spur of competition.What happened?
Immediately the utmost efforts to
improve the manual service were
made.But it is a cold, hard fact that these
efforts have been to a large degree
unsuccessful. It is simply a physical
impossibility to make manual service
come anywhere near the remarkable
efficiency of the automatic.The reason is obvious. The auto-
matic is a higher development of the
telephone principle.It has eliminated the huge cost and
great uncertainty of the human
operator.It has made telephoning secret,
quick, low in cost.On the Automatic telephone a ma-
chine—quick as lightning, absolutely
accurate—gets your number for you.
There are no hitches, no delays, no
wrong numbers.Automatic telephone service has re-
ceived a tremendous welcome in Chi-
cago. Automatic service has doubled
and doubled again until over 400,000
calls per day are being handled.And all this in the face of one of
the most powerful monopolies the
world has ever seen.For better telephone service, phone
for your Automatic today—Commer-
